Rule on the Discount card

● up to 5% ● 5–8% ● above 8%

Driven by one DAX measure, so the color updates with every filter.

What the data says

56.6%

of net sales come from the Western region

5.35%

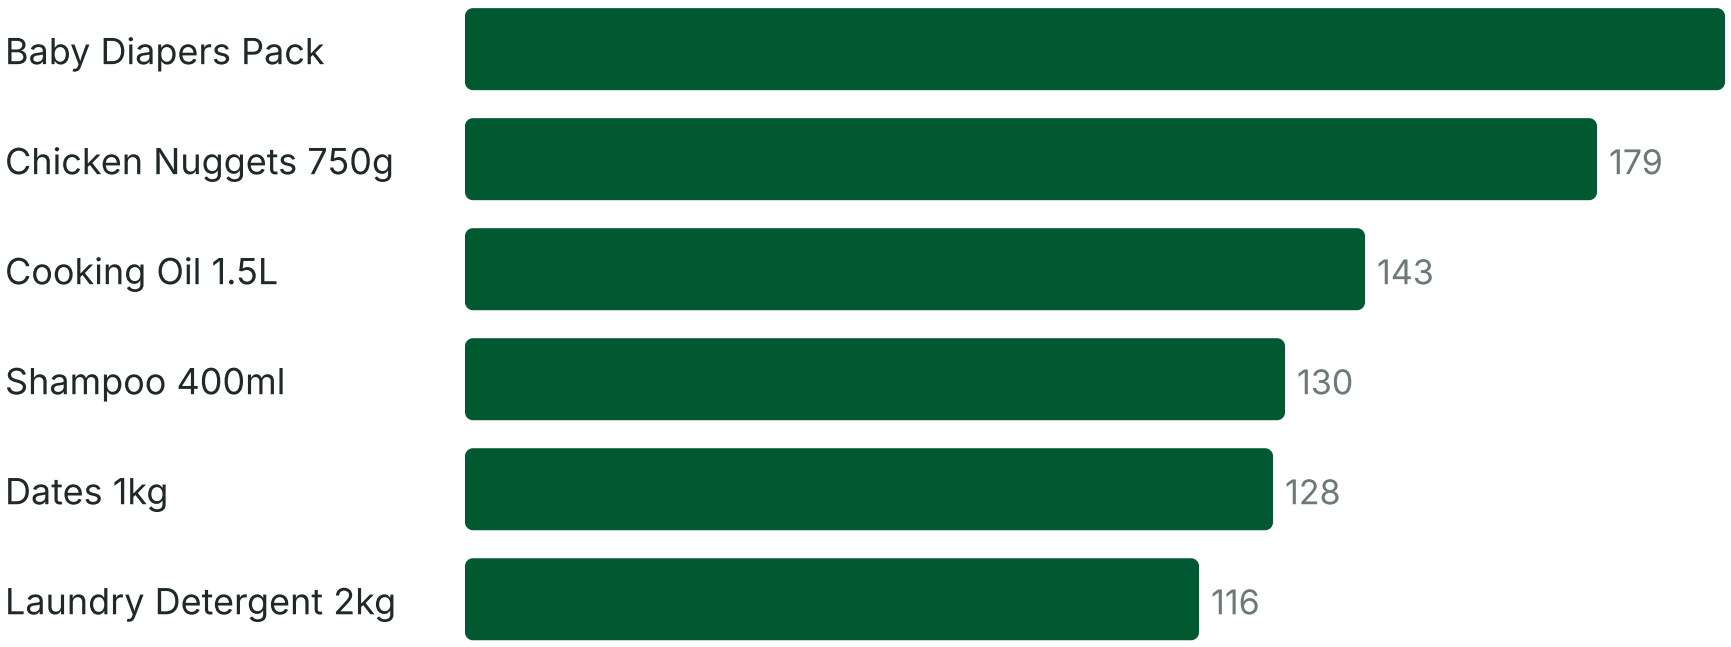

overall discount rate, already in the amber zone

75.2%

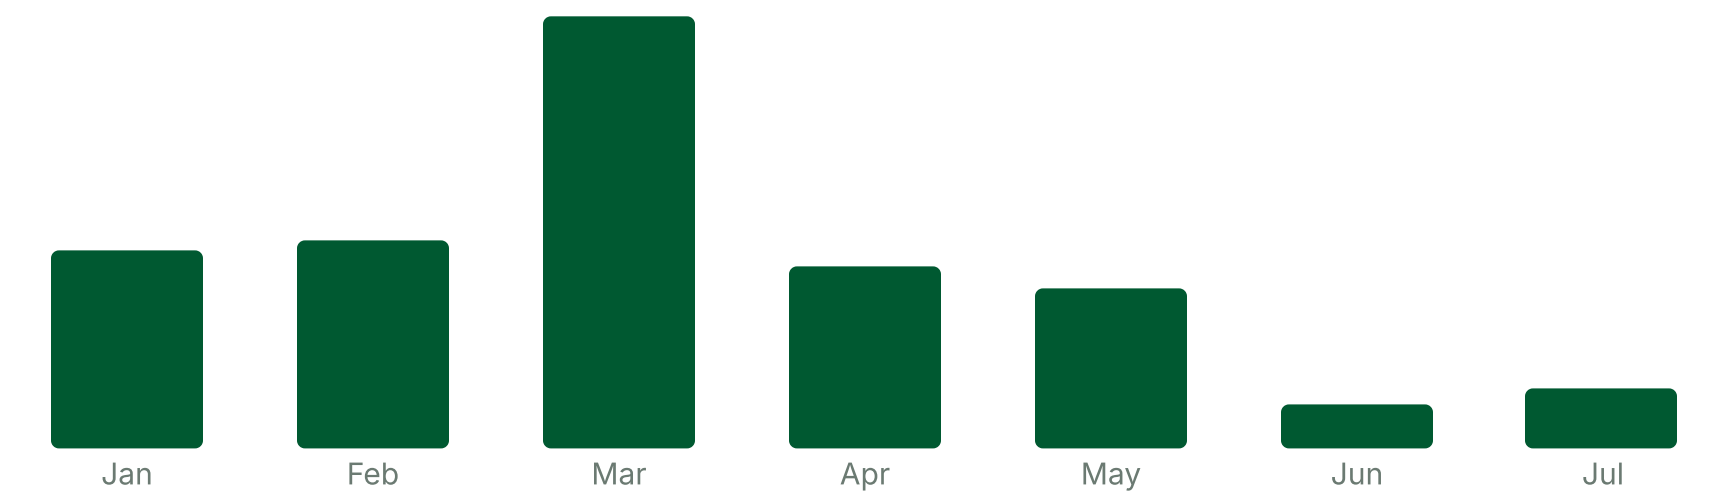

of transactions are paid digitally

Where the money goes

Top products by net sales (SAR)

Net sales by month (SAR)

March peaked at 514.66; discounts climbed in June (19.1% of gross).

From insight to action

1

Grow beyond the West

56.6% of net sales sit in one region. Test promotions in Northern, Southern and Central.

2

Cap discount depth

Discounts reached 19.1% of gross in June. Set a ceiling and track it with the status card.

3

Protect the top 3 products

Diapers, nuggets and cooking oil lead sales. Keep them in stock and visible.

4

Use the loyalty base

Loyalty members are 48.9% of sales. Target them with basket-building offers.

How it was built

- Data model with a Dim Date table
- 32 DAX measures in display folders
- Custom JSON theme across all visuals
- Cross-filtering tested on slicers and charts
- Dynamic insight lines driven by measures

Dataset: 48 sample transactions (Jan–Jul 2025). An exercise in modelling and design, not a market conclusion.

Feedback from fellow analysts welcome.
